STEEL YOUR RESOLVE Participate in Steel Day 2009!

Mark your calendars –
SteelDay 2009 is fast approaching!

On **Wednesday, September 18**, the American Institute of Steel Construction (AISC) is hosting a sweeping, nationwide effort to immerse participants in all things steel. This interactive event will allow participants access to the facilities of hot-dip galvanizers, steel fabricators, mills, service centers, HSS producers, bender-rollers and others to give the general public an inside peek at the structural steel industry. Steel Day is a great way to...

- Network with members of the galvanizing, design, construction, and structural steel industry nationwide.
 - Visit galvanizing plants, steel fabricators, mills, service centers, and others in the industry for an inside-peek at the world of steel.
 - Learn about sustainability advances in the structural steel industry, including how [hot-dip galvanized steel](#) can protect both the environment AND your wallet
 - Participate in continuing education seminars, such as the [Galvanize It!](#) seminar
- Visit www.steelday.org
 - See which events are available in your [area](#).

QUICKNOTES

- **SUMMER WEBINAR!**

A Galvanize It! webinar will be held Thurs., Aug. 6 at 3 pm EST

[Sign up](#) today!

- Mark your calendars for Steel Day 2009 on Wed., Sept. 18

ASK DR. GALV

How does metallizing compare to hot-dip galvanizing?

Like hot-dip galvanizing, metallizing is a zinc coating used to protect steel from corrosion, and both provide barrier and cathodic protection to the steel beneath. However, differences in application, time to first maintenance, and cost reveal when and how each system should be used with your product.
