**“PARKING FOR THE FUTURE: A COLLECTION OF
HOT-DIP GALVANIZED STEEL PARKING GARAGES” IS NOW AVAILABLE**

CENTENNIAL, CO – The American Galvanizers Association (AGA) has released a free, full-color publication featuring project applications on seven parking garages that use hot-dip galvanized steel in design and construction. Each application is described in detail including, reason for specification, environment, products galvanized, and more. The collection also proposes a solution to costly concrete deterioration and explains the use of hot-dip galvanizing as a premier corrosion protection system. Finally, a comprehensive list of common hot-dip galvanized products used in parking garages is provided.

For your free copy, email your mailing address to publications@galvanizeit.org with “Parking for the Future” in the subject line. Limit one copy per person. You can also preview the brochure on the AGA website at <http://www.galvanizeit.org/ref/parking/>.

Serving the needs of specifiers, architects, engineers, contractors, and fabricators throughout North America since 1935, the American Galvanizers Association (AGA) provides information on the most innovative applications and state-of-the-art technological developments in hot-dip galvanizing for corrosion protection. Created to educate and train in the specification and use of hot-dip galvanized steel, the AGA maintains a large technical library, distributes numerous industry publications, offers free educational seminars, and provides toll-free technical support to the specifying community.

With years of technical experience and expertise, the AGA staff is able to provide informative, custom articles for your publication, upon request. Please contact the AGA for more information.
